

Regional Awareness and Accessibility Program

MEDIA RELEASE

1 February 2018

Western Australian Ombudsman strengthening links in the South West Region

Staff from the offices of the Western Australian Ombudsman and the Western Australian Energy and Water Ombudsman will be visiting the South West Region from 28 February to 2 March 2018.

The visit is an integral part of the office's Regional Awareness and Accessibility Program, which is intended to ensure awareness and accessibility to our services by regional and Aboriginal Western Australians. The offices of the Commonwealth Ombudsman and Health and Disability Services Complaints Office will join the visit.

Western Australian Ombudsman Chris Field said that improving awareness of the office's services, and strengthening relationships with regional communities, were key priorities.

"We want to ensure that our services are as accessible as they can possibly be to Western Australians living and working in the regions," Mr Field said.

The events taking place in the South West Region include:

- Complaint clinics where members of the public can bring their concerns to us (that have not been able to be resolved directly with public authorities or providers of energy and water services);
- Meetings with Aboriginal community members; and
- Visits to, and liaison with, public authorities and community groups.
